

Test case:

User can add a robot to a duo

This test will see if the user can properly add a robot to a duo, along with visual cues to confirm this.

Steps:

1. Open website
2. Click the "Draw" button
3. Select two robots
4. Click the "DUEL!" button

Postconditions:

- Website should display both the robots in "Your Duo" when added
- Website should also display the correct robots when they fight

Bug report:

- ERROR GETTING BOTS
- Bots arr is not defined
  - When the get all bots button is pushed, nothing is displayed

Bug report:

- Wins are counted as losses
  - When a win occurs, only the losses count up
  - Losses work as intended
